

Ho Tram Strip unveils Gallery Villas project on 19Mar 2016

The Ho Tram Project Company is offering homes in Gallery Villas project as part of the multi-billion-dollar integrated resort complex Ho Tram Strip in the southern province of Ba Ria-Vung Tau. The developer of Ho Tram Strip said in a statement released over the weekend that 60 three-bedroom villas join Vietnam's leading entertainment destination, The Grand Ho Tram Strip and Vietnam's best golf course, The Bluffs Ho Tram Strip, as part of the nation's leading beachside destination. The villas are woven seamlessly into the golf course's rolling dune scape.

The Gallery Villas range in size from 800-1700 square meters and are set over two floors, each blending indoor and outdoor living spaces on both levels, including terraces and private swimming pools for owners. The interiors of the villas feature a contemporary luxury seaside lifestyle.

Michael Kelly, executive chairman of Ho Tram Strip, said the company has built the premier resort in Vietnam with The Grand, the premier golf course in Vietnam with The Bluffs. And now opens the doors on Vietnam's premier residences with the Gallery Villas.

The Gallery Villas project is the latest residential announcement from the company under Asian Coast Development (Canada) Ltd after the announcement of the development of a time share condominium tower on the company's 164 hectares beachfront site more than three months ago.
